

# AMERICAN JOURNAL OF OPHTHALMOLOGY

THIRD SERIES FOUNDED BY EDWARD JACKSON

VOLUME 29, 1946

---

#### EDITORIAL STAFF

DERRICK T. VAIL, Editor-in-Chief

WILLIAM H. CRISP, Consulting Editor

LAWRENCE T. POST, Consulting Editor

WILLIAM L. BENEDICT

S. RODMAN IRVINE

FREDERICK C. CORDES

DONALD J. LYLE

SIR STEWART DUKE-ELDER

IDA MANN

EDWIN B. DUNPHY

ALGERNON B. REESE

HARRY S. GRADLE

PHILLIPS THYGESEN

F. HERBERT HAESSLER

M. URIBE TRONCOSO

PARKER HEATH

F. E. WOODRUFF

KATHERINE FERGUSON CHALKLEY, Manuscript Editor

#### COLLABORATORS

CHARLES A. BAHN, *New Orleans*; EUGENE M. BLAKE, *New Haven, Connecticut*; FRANCIS M. CRAIG, *Chicago*; BEULAH CUSHMAN, *Chicago*; RAY K. DAILY, *Houston, Texas*; RALPH W. DANIELSON, *Denver*; ALICE R. DEUTSCH, *Memphis, Tennessee*; OSCAR FELSENFELD, *Chicago*; IRWIN E. GAYNON, *Milwaukee*; MAX HIRSCHFELDER, *Centralia, Illinois*; CARL D. F. JENSEN, *Seattle*; MORRIS KAPLAN, *New York*; MELCHIORE LOMBARDO, *Brooklyn*; JOHN C. LONG, *Denver*; J. WESLEY MCKINNEY, *Memphis, Tennessee*; BENJAMIN MILDEN, *University City, Missouri*; BENNETT W. MUIR, *Denver*; FRITZ NELSON, *Colorado Springs*; JOSEPH PASCAL, *New York*; EDNA M. REYNOLDS, *Denver*; EDWARD SASKIN, *Brooklyn*; THEODORE M. SHAPIRA, *Chicago*.

PUBLISHED BY THE OPHTHALMIC PUBLISHING COMPANY  
837 Carew Tower, Cincinnati 2, Ohio

## PLATES IN VOLUME 29, 1946

Plate 1 (colored)—Figure 8. Fundus of the right eye two months after the scleral-resection operation.	Derrick Vail .....	facing	785
Plate 2 (colored)—Figure 2. Fundus of the left eye showing massive preretinal hemorrhages and hemorrhages into the fiber layer of the retina of an atomic-bomb casualty.	Karl B. Benkwith .....	facing	800
Plate 3 (colored)—Figures A and B. Effects of vitamin-A deficiency on rabbit eyes. A, Eye of a normal rabbit. B, Eye of vitamin-A deficient rabbit.	Ida Mann, A. Pirie, K. Tansley, and C. Wood .....	facing	806
Plate 4 (colored)—Figures 9a, b; 10a, b, c, d, and e. A study of lewisite lesions of the eyes of rabbits.	Ida Mann, A. Pirie, and B. D. Pullinger.	facing	1215
Plate 5 (colored)—Figures 5 and 7. A study of lewisite lesions of the eyes of rabbits.	Ida Mann, A. Pirie, and B. D. Pullinger .....	facing	1222
Plate 6 (colored)—Plate 1. Cytology of conjunctival scrapings.	Phillips Thygeson .....	facing	1499

*M.H.*

entire, (1616).  
fate of, (897).  
histologically examined case, (1350).  
and iridectomy, (1617).  
for keratoconus, 347.  
nursing care after, (901).  
and plastic operations, (254).  
punch for, (898).  
sugar therapy for postoperative swelling, (280).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Corneal ulcers :
  - covering with conjunctival flap, (111).
  - dendritic, (767).
  - Moretti's suture for Mooren's, (491).
  - traumatic, (1617).
- Corneal ulcers, serpiginous, (92), (1587), (1615).
- Corneal ulcers, serpiginous :
  - choline treatment for, (602).
  - cibazol treatment, (1618).
  - covering with conjunctival flap, (111).
  - digestive ferments treatment, (615).
  - streptomycin treatment, 1106.
  - sulfonamides for, (109), (767), (1615).
- Corneo-sclerectomy, 1591.
- Correspondence, 107, 221, 359, 474, 607, 892.
- Crisp, Dr. W. H., an appreciation, 604.
- Cross-cylinder technique, (1336).
- Crystalline lens, in abstracts, (121), (496), (624), (772), (904), (1184), (1626).
- Cultures following cataract operation, (497).
- Cushing's disease, eye findings in, (378).
- Cyclodialysis, see under Glaucoma.
- Cyclodiathermy :
  - for hydrophthalmos, (119).
  - and see under Glaucoma.
- Cyclopégine, (1338).
- Cyst :
  - orbital, (369), (507).
  - prepapillary, (368).
  - retinal, (777).
- Cysticercosis, (1491).
- Cysticercus :
  - cellulosae, (1207).
  - motility of intraocular, (775).
  - subconjunctival, (1487).
- Cytology of conjunctival exudates, 1499.
- Dacryocanaliculitis, suppurative and cystic, in trachoma, (371).
- Dacryocystitis :
  - in peace and war, (130), (131).
  - penicillin for, (226), 723, (1200).
  - phlegmonosa, treatment, (130).
- Dacryocystorhinostomy, (131), (227), (878), (1202).
  - follow-up of, (1481).
  - needle, (632).
- Dacryorhinostomy :
  - autoplastie, (1203).
  - for congenital stenosis, 881.
- Dacryosinusitis simulating dacryocanaliculitis, (633).
- Dacryostomy, (227).
  - endonasal (West's operation), (1481).
- Davel, Jacques, and discovery of cataract extraction, (1493).
- Demyelinating diseases and ocular involvement, 93.
- Denmark, xerophthalmia in, (1616).
- Descemet's membrane, splitting, for keratoconus, (112).
- Detergents :
  - toxic effect of, (232).
  - and wetting agents, 717, 1317.
- Diabetes :
  - biomicroscopy of eye in, 590.
  - dietary and vitamin therapy changes, 1017.
  - eye complications from an internist's standpoint, 592.
  - histopathology, 591.
  - needles, (905).
  - in ophthalmology, (916).
  - retinopathy, 591.
  - surgical eye complications in, 592.
- Diagnosis, methods of, in abstracts, (223), (481), (752), (1042), (1326), (1602).
- Diagnosis :
  - eye examination in disoriented patient, 953.
  - external eye, (1603).
  - fundus in child, as means of, (1602).
- Diathermy :
  - coagulation, localizing, (126).
  - effect of, on eye, (232).
  - surgery of ciliary body in glaucoma, 269.
  - tip for retinal operations, (484).
  - and see under Retinal Detachment.
- Di-isopropyl fluorophosphate (D.F.P.) in glaucoma, 1071, 1468.
- Diplegia and hemianopia, 1458.
- Diplopia :
  - charting and muscle action, 1001.
  - controlled suture, (248).
  - correction by advancing superior oblique, (247).
  - nystagmoid movements and vision in, (1340).
  - in paralysis of vertically acting muscles, (249).
  - and polyopia of cerebral origin, (757), (1606).
- Disc :
  - depth and relation to intelligence, (630).
  - drusen of, 1455.
  - tumors of, (506).
- Diseases of the Eye, 1470.
- Diseases of the eye in South Africa, (381).
- Diseases of the Retina, 1601.
- Disoriented patient, eye diagnosis of, 953.
- Divergence :
  - center for ocular, 422.
- Draganescu's cutaneo-auricular reflex, (1213).
- Drusen of the optic disc, 1455.
- Duane's syndrome, (504), (872).
  - and see under Syndrome.
- Dysraphicus and Fuch's heterochromia, (258).
- Ecchymotic mask, (1204).
- Eclipse retinitis, (1630).
- Ectopia lentis, 735, 1023.
  - in arachnodactyly, 1588.
- Ectropian, senile, and Bowen's disease, 347.
  - of uvea, (770).
- Editorials :
  - American Academy of Ophthalmology and Otolaryngology, 1946 meeting, 1464.
  - American Ophthalmological Society meeting, 1945, 103.
  - Anesthesia, century of, 1316.
  - Aniseikonia, evaluation after 12 years, 742.
  - Association for Research in Ophthalmology, 1171.

## SUBJECT INDEX

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

**Editorials (continued).**

- Buss, Emma S., **1168.**
- Cataract operations, misgivings as to technique, **1594.**
- Challenge, The, **218.**
- Changing scope of medical specialities, **1592.**
- Crisp, Dr. W. H., an appreciation, **604.**
- Curriculum, a standardized, **1315.**
- Di-isopropyl fluorophosphate in glaucoma, **1468.**
- Educational aids, **472.**
- Eye Bank for Sight Restoration, inc., **746.**
- Federal investigation of rebating, **1313.**
- Haessler, Dr., edits abstract department, **102.**
- Iridencleisis and Tenon's capsule, **889.**
- Los Angeles mid-winter postgraduate course, **217.**
- Myopia, theories concerning, **1036.**
- Nationalized Ophthalmology in Britain, **883.**
- Need for more basic courses in Ophthalmology, **105.**
- Ophthalmic meeting of spring, **1946, 1033.**
- Ophthalmic training, intensive course for, **354.**
- Ophthalmic training, national program for, **605.**
- Ophthalmic training, problems of postwar, **215.**
- Ophthalmology, need for more basic courses in, **105.**
- Ophthalmology scores again, **886.**
- Ophthalmology in the Veterans' Administration, **1169.**
- Opportunities for training in Ophthalmology, **356.**
- Perimetry, plea for better instruction in, **745.**
- Problems of postwar ophthalmologic training, **215.**
- Radioactive isotopes, **1596.**
- Return Lend-Lease, **1172.**
- Through English eyes, **353.**
- Training nonmedical helpers, **1466.**
- Tridione and the eye, **606.**
- Wetting agents and detergents, **1317.**
- Wilmer Residents Association meeting, **1037.**
- Electrical potentials from eye movements, **(1063).**
- Electrocoagulation for lid-position anomalies, **(231).**
- Electroencephalography:

  - changes in eye opening and stimulation, **(1338).**
  - and ophthalmology, **1522.**

- Embryology of zonule, **1581.**
- Embryonic malformation, **(369).**
- Endophthalmitis, penicillin in metastatic, **(755).**
- Enophthalmos with orbital carcinoma, **(505).**
- Entopic phenomena, **(1608).**
- Enucleation:

  - Burch's operation preferred, **(233).**
  - Frost-Lang operation, **(1473).**
  - hemorrhage after, **(129).**
  - implantation following, **461, (484), (1483).**

- Enucleation (continued).

  - implantation, choice of materials for, **(128).**
  - lid atrophy after, fascia-lata transplant for, **176.**
  - procedure, **(128).**
  - restoration of socket or lower cul-de-sac, **(233).**

- Enzymes, oxidations in ciliary processes, **(1621).**
- Eosinophilia in chloroma, **(506).**
- Epithelium, carcinoma of, **(1613).**
- Epithelioma:

  - conjunctival, **92.**
  - lacrimal sac, **(370).**
  - of meibomian gland, **(374).**

- Errata, **1354.**
- Erythema nodosum and uveoparotid fever, **(492).**
- Evipal, angioscrotomas after ingestion of, **1258.**
- Evisceration:

  - eyeball, method for, **859.**
  - implant following, **461.**

- Ewing's sarcoma, **(506).**
- Exophthalmic goiter in children, **(379).**
- Exophthalmic ophthalmoplegia, **1030, (1479).**

  - in Graves' disease, **(1477).**
  - relation to thyrotoxicosis, **654.**

- Exophthalmos:

  - and Basedow's disease, **(1199).**
  - clinical aspects and treatment, **1311.**
  - cranio-facial dysostosis and, **(1473).**
  - and endocrine disturbance, **1029.**
  - and granuloma of the bone, **980.**
  - malignant, **(1020), (1021).**
  - in newborn, **(370).**
  - progressive, **(1472).**
  - pulsating, **(370), 1589.**
  - from retrobulbar metastasis in pulmonary carcinoma, **1026.**
  - after strumectomy, **(782).**
  - syphilitic and osteoma, **(1197).**
  - thyrotropic, **(504), 1028, (1480).**
  - X-ray measurement, **(480).**

- Eye:

  - aberrations of, **211.**
  - retrobulbar, embryonic, **(369).**
  - artificial, for U. S. Army, **984.**
  - cardinal points in static and dynamic, use of benzene ring to remember, **(760).**
  - conditions in children of premature, full-term, and hypermature birth, **57.**
  - in demyelinating diseases, **93.**
  - diseases in the East, **(613).**
  - at Iwo Jima, **(375).**
  - hereditary diseases, sterilization and success of treatment in serious, **(145).**
  - infections, see under Infections.
  - injuries, see under Injuries.
  - maldevelopment of, **(369).**
  - ointment, **(483).**
  - parasites in, see under Parasites.
  - pathologic, microtechnique of the, **(224).**
  - screening methods, military, **731.**

    - in industry, **732.**
    - in schools, **734.**

  - structure, effects of detergents on, **(232).**
  - in syphilis, relation to immunity, **389.**
  - transplanted, **(384).**

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

**Eye (continued).**

- and types, paper, and printing, (923).
- Eye Bank for Sight Restoration, inc., 746.**
- Eye drops:**
  - alkaline, (1327).
  - standardization of, (1328).
- Eye examination in the disoriented, 953.**
- Eyeball, method of evisceration, 859.**
- Eyeball and Orbit, in abstracts, (128), (369), (503), (631), (782), (910), (1197), (1472).**
- Eyebrow injury and visual loss, 872.**
- Falta's test, see under Blindness.**
- Federal investigation of rebating, 1313.**
- Fever therapy, (1046).**
- Fluids, intraocular, hyaline bodies in, (1478).**
- Fluorescent substance from dogfish eye, (1623).**
- Foreign bodies:**
  - chalcosis, (508).
  - with spontaneous resorption, (1486).
  - ciliary body, magnetic extraction, (135).
  - cornea, (138).
    - electric needle for extraction, (1485).
    - magnetic extraction through scleral opening, (134).
  - intralenticular, rusting of iron splinters, (138).
  - and siderosis, 346.
- intraocular, (914).**
  - and bulbar siderosis, (507).
  - extraction, (134).
    - magnetic, 151.
    - nonmagnetic, (138).
  - management in military practice, 815.
  - unusual, 1026.
- intraocular, localizing of, (1205).**
  - with gonioscope, (139).
- iris, encapsulated in, 1164.**
- in lens injury, (1627).**
- location with Berman locator, (1484).**
- nonmagnetic, (486).**
- orbit and sinuses, (136), (137).**
- radiographic location, (1602).**
- rye in lacrimal canaliculus, (911).**
- siderosis bulbi, (903).**
- tolerated for 11 years, (1485).**
- Foster Kennedy syndrome, (631).**
- Foveal color sensitivity, (1610).**
- Franceschetti's corepraxy to produce artificial pupil, (910).**
- Frost, Albert D., 358.**
- Fuch's heterochromia, (258).**
- Fuch's or Bell's phenomenon, perverse, (248).**
- Fundus:**
  - in young children, (1043).
  - for diagnosis in children, (1602).
  - lesions, (374), (1190).
  - stereoscopic viewing, (482).
  - slitlamp microscopy of, (224).
  - in spotted typhus, (627).
  - and see under Retina.
- Furmethide in glaucoma, 447.**
- Furunculosis and choroidal detachment, (1621).**
- Fusion, frequency, (1334), (1335).**
- Gargoylism, (922).**
- Gifford, Sanford R. Memorial Lecture, 209.**
- Gilchrist's disease, (1487).**
- Glasses, see under Spectacle Lenses.**
- Glare, effect on light adaptation, 328.**
- Glaucoma and ocular tension, see Abstracts, (115), (260), (494), (619), (771), (903), (1108), (1624).**
- Glaucoma, 98, (620), (1182):**
  - acute, subluxation of lens due to, (1625).
  - and alteration of arterial pressure, (1624).
  - and aniridia, (620).
  - anterior hemorrhagic, (262).
  - cataracta glaucomatosa acuta, 1396.
  - aqueous humor tested for parasympathomimetic effect, (494).
  - chronic, 98, 99.
    - cataract and (261).
    - clinics, (495), (637).
    - congenital, after rubella in mother, 190.
    - congestive with acute rheumatism, (1625).
    - death cause, 603.
    - diagnosis, pupillograph in, 1162.
      - role of elastotonometry in, (120).
    - errors in ophthalmic practice in, (1180).
    - etiological factors in, 1157.
    - "Glaukomflecken," 1396.
    - hemorrhagic, 1025.
    - incomplete, (1183).
    - intraocular tumors and, (372).
    - iris displacement in, (1183).
    - medical social service in, (636).
    - and papilledema, (781).
    - pathogenesis of, (118).
    - preglaucoma, 520.
    - secondary, to anterior hemorrhage, (262).
      - histologic findings in, (496).
    - simple, 1586.
    - uveitis and secondary, (1623).
    - vasodilation, (620).
    - venous pulsation as a symptom of early, 1446.
    - following X-ray burns, 347.
  - Glaucoma and ocular tension:**
    - hypertension of sympathetic cordial system, (119).
    - without hypertension, (495), (623).
    - hypophysis and, (1181).
    - hypotension and primary glaucoma, (117).
    - hypotony, (1182).
    - irradiation of cervical sympathetic, effect on, (235).
    - lability of, (260).
    - and male gonads, (771).
    - and retinal circulation in pregnancy, (123).
    - and rigidity in rabbits, 1400.
    - and suprarenal gland (771).
    - threshold of, (1625).
    - tonometric "expression" testing of, (116), (120).
  - Glaucoma treatment:**
    - anterior-lobe extract to reduce pressure, (495).
    - di-isopropyl fluorophosphate (D.E.P.), 1071, 1468.
    - doryl (carbaminoylecholine chloride), (117).
    - endocrine treatment, (623).
    - furmethide, 447.
    - neurovegetative drugs, (116), (496).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

**Glaucoma treatment (continued).**  
 X-ray irradiation of cervical sympathetic, (115), (120), (235).

**Glaucoma, surgical treatment:**  
 causes of failure of, (116).  
 cyclodialysis, 848, (1182).  
 cyclodiathermy, 97, (119), (120), (236), (262), (263), (494), (619), (903).  
 nonperforating, 180.  
 Vogt's, (234), (269).

**diathermy of ciliary body,** 269.

**goniotrabeculotomy and goniocyclodiathermy,** (233).

**hemicyclodialysis for intraocular drainage,** (904).

for hydrophthalmos, (1624).

**iridencleisis,** (228), (622).  
 Herbert, 90, (261), (598).  
 Holth's, (1626).

**sympathetic ophthalmia following,** 96.

**paracentesis for acute,** 1309.

**stellectomy,** (496).

**trepining,** (228).

**vitreous extraction,** (119).

Vogt's operation and pyrometric electrode, (1180).

**Glioma:**  
 of chiasm, (635).  
 in China, (776).  
 of optic nerve, 323, (373).  
 of retina and brain, (908).  
 ophthalmoscopic picture, (781).  
 treatment, (502).

Glucose in aqueous humor of cat, (260).

Goiter, ocular changes in primary diffuse, (1479).

Gonadotropin for hypophyseal derangements, (627).

**Goniometry,** 106.  
 simplified by contact prism, (1042).

**Gonorrhea:**  
 syndrome without gonorrhea, (252).  
 treatment, (1348).

Gradle, Harry S., awarded Leslie Dana Medal, 1465.

**Grafts:**  
 choice in orbital reconstruction, 867.  
 seed, for symblepharon, 1568.

Granuloma of bone causing exophthalmos, 980.

Graves' disease, (1477).

Guatemalan onchocercosis, (636).

Haessler, editor of abstract department, 102.

Harada's disease and uveomeningitis, (1176).

Hemeralopia, congenital, with retinitis pigmentosa, (123).

**Hemianopsia:**  
 binasal and acromegaly, (782).  
 from dental granuloma, (1209).  
 and spastic diplegia, 1458.  
 traumatic, (509), (1205).

Hemoblastic growths in orbit, (506).

Hemophthalmos, surgical treatment of, (135).

**Hemorrhage:**  
 ascorbic acid for, after cataract operation, (1627).

**Hemorrhage (continued).**  
 conjunctiva, (897).  
 expulsive, (257).  
 anatomic discoveries, (493).  
 treated by optico-ciliary neurotomy, (620).  
**retinal:**  
 in aplastic anemia, (907).  
 in atomic bomb casualty, 799.  
 in new-born, (142).  
 subarachnoid, (1631).

**Heredity:**  
 accommodation paresis, (1054).  
 anomaly of "blue sense," (242).  
 cataract, (382), (383), (624), (905).  
 in choroideremia, (258), (770).  
 color in human eye, (1176).  
 color blindness, (240).  
 corneal degenerations, (1067).  
 corneal dystrophy, (1616).  
 corneal opacities, (898).  
 glioma of retina and brain, (908).  
 heterochromia, (1180).  
 hydrophthalmos, (1184).  
 lens subluxation, (1185).  
 lid defects with abnormalities of temporal bone, 598.  
 macular degeneration and spastic paraparesia, (1190).  
 muscle paresis, (1063).  
 neurofibromatosis, 1299.  
 nystagmus, recessive in female, 1534.  
 and ophthalmology, (145), (146), (240), (258).  
 refraction in twins, (245).  
 retinal detachment, (501), (1193).  
 sterilization and, (145), (146), (382), (383).  
 Werner's and Rothmund's syndromes, (906).

Herpes zoster ophthalmicus, 582, (911), 1457.  
 after trauma, 1304.

**Heterochromia sympathetic:**  
 acquired by adult, (1180).  
 Fuchs's with signs of status dysraphicus, (258).

Histologic findings in wood-injured eye, (509).

**History,** see Abstracts, section eighteen.

Hodgkin's disease, (782).

Horner's syndrome, (380).

**Hyaline bodies in intraocular fluids and tissues,** (1478).

**Hyaloid artery,** remains of, (1627).

**Hyaloid canal in human vitreous,** (226).

**Hydrocephalus, visual field in,** (1471).

**Hydrogen sulphide cause of eye disease,** (1614).

**Hydrophthalmos:**  
 congenital, (1184).  
 cyclodiathermy for, (119).

**Hydrops of cornea,** 346.

**Hygiene, sociology, education, and history,** (144), (381), (511), (636), (922), (1210), (1492).

**Hygiene, race, ophthalmic,** (381).

**Hyperplasia:**  
 of cornea following trachoma, (614).  
 of tunica vasculosa lentis, 1462.  
 of primary vitreous, 1.

**Hyperpyrexia as therapeutic agent,** (1046).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Hypertension :
  - ocular, see under Glaucoma, Ocular Tension.
  - essential and retinal vascular micrometry, (776).
  - of sympatheticradial system, (119).
- HypHEMA, postoperative, atropine for, (483).
- Hypochromia, (258).
- Hypophysitis and glaucoma, (1181).
- Hypopyon ulcer :
  - penicillin and vitamin-C treatment for, (1617).
  - sulfonamide treatment, (1612).
- Hypopyon-uveitis, (492).
- Hypotony :
  - orthostatic, ocular findings in, (1182).
  - postoperative, after retinal detachment, (778).
  - traumatic and myopia, (772).
- Ichthyosis of cornea, (254).
- Illinois, blind assistance in, (1211).
- Illumination :
  - appraisal of, light and dark adaptation, 328.
  - for the ophthalmologist, (382).
  - and visual efficiency, (1337).
- Implantation :
  - acrylic resin (plastic), 461, (484).
  - buccal mucosa, (1617).
  - ophthalmopedics, 968.
  - plastic eye, 947.
  - into Tenon's capsule, 1571.
  - in United States Army, 984.
- Implants after enucleation :
  - basket type for, (1473).
  - choice of material for, (128).
  - after Frost-Lang operation, (1473).
  - for sunken upper lid, 993.
  - tantalum, 1151.
- Industry :
  - first aid in chemical injuries, (1328).
  - one-eyed worker in, (637), (924).
  - screening methods for eye defects, 732.
  - vision in, 63.
  - vision and personnel selection, (638)
- Infections :
  - dental, (143), (378), (768), 1135.
  - dust-borne, in ophthalmic surgery, 1435.
- Infections, ocular :
  - intrabulbar, local treatment, (1477).
  - short-wave therapy of, (328).
  - sugar therapy, (230).
  - with Torula histolytica, 212.
- Inflammations :
  - from dental infections, (143).
  - penicillin in, 450.
  - X-ray therapy for stubborn, (228).
- Injuries, see Abstracts, (133), (374), (507), (635), (913), (1204), (1484).
- caterpillar hair, 1206.
- cerebral and space perception, (243).
- ciliary body, perforating, (136).
- contusions, (258).
- cornea :
  - metallic impregnation, (254).
  - operative treatment for, (140).
  - penicillin treatment, (485), 1152.
- Injuries (*continued*) .
  - cornea (*continued*) .
    - sulfadiazine treatment, (485).
    - eye and brain, prognosis of, (134).

 and Beta radiation, (1048).  
 Chinese native, (1212).  
 in diabetes, (916).  
 and electroencephalography, 1522.  
 legal, 1112.  
 lysozyme as defense factor in, (634).  
 nationalized in Britain, 883.  
 or infection in, (378).  
 overseas, 551.  
 postwar responsibilities and opportunities, (1492).  
 public health aspects, (637).  
 and Jan Purkinje, (145).  
 scores again, 886.  
 tubular stem in, (505).  
 Turkish, (146).  
 in Veterans' Administration, 1169.  
 in war years, 1469.

Ophthalmotonic reaction, (1625).

Ophthalmyosis, (143), (377).

Ophthalmoplegia:  
 from electric short circuit, (376).  
 in Graves' disease, (1477).  
 exophthalmic, 654.  
 internal, (770), (1472).  
 as sign of syphilitic meningitis, (762).

Optic nerve:  
 degeneration, (368), (496).  
 disc:  
   drusen of, 1455.  
   depth and relation to intelligence, (630).  
   eclampsia, (126).  
   glioma of, 323.  
   prepapillary cyst, (368).  
   sheath-membrane examination in tumors, (373).  
   tumors of, (506).  
 Optic nerve atrophy:  
 arachnoiditis, 1165.  
 arteriosclerotic, (368).  
 meningioma, 1589.  
 primary, (367).  
 syphilitic, 92.  
 tryparsamide amblyopia, 92.

Optic nerve avulsion:  
 compression in Cushing's disease, (378).

Optic neuritis, (1196).

Optic-tract, labyrinthine excitability in cat, (1063).

Optic vesicle, transplantation in Triturus and Rana, (384).

Optics, wartime, (636).

Orbit:  
 carcinoma, (505).

Orbit (*continued*).  
 cellulitis of, 1574.  
 cephalocele, (128).  
 chloroma with fundus changes, (1198).  
 embryonic malformation, retrobulbar, (369).  
 fractures of, (1474).  
 gnathostome, (378).  
 hemangioma, (910).  
 melanoma, (1203).  
 musculature tumors, (272).  
 myxoma of, (1473).  
 neurofibromatosis, (1199).  
 neuroma after amputation, (1197).  
 sarcoma, (506).  
 sinusitis complications, (1199).  
 varix, (1477).

Orbital reconstruction:  
 of floor, 1010.  
 grafts, choice of, 867.  
 plastic operations, (1475).  
 prothetization (plastic), (129).

Oregon, public school program for visual handicapped, (1211).

Organic diseases and nutrition deficiency, 1019.

Orthoptics, (761).  
 to improve visual acuity, 204.  
 for strabismus, (247).

Oxycephaly with Klippel-Feil syndrome, 685.

Palpebroconjunctival autoplasty, (632).

Palpebrofacial defects, plastic surgery for, (134).

Panama, ocular leprosy in, 295.

Pan-American Notes, 265, 640, 1632.

Papilledema and retinal detachment, (126).

Papilloma of cornea, (490).

Parasites, (142), (376), (509), (636), (916), (1206), (1487).

Parasites:  
 cysticercus:  
   motility of intraocular, (775).  
   subretinal, surgical treatment, (1487).  
   cellulosae (taenia solium), (1207).  
   and the vitreous body, (1490).  
 diptera, (143).  
 gnathostoma (nematoda), (378).  
 hypoderma lineatum, (1489).  
 intraocular (China), (777).  
 onchocerca:  
   Guatemalan, (636).  
   ocular complications, (1487).  
   volvulus, (921).  
 ringworm of the eyebrow, (505).  
 and see under Abstracts, section seventeen.

Parinaud's syndrome, (761).

Pemphigus, 1301.  
 chronic, 589.  
 conjunctivae, 1426.

Peduncular syndrome, new type, (511).

Penicillin, (226), (227), (482), 601, (754), (756), (1045), (1327), (1329), (1331), (1603).  
 in the aqueous humor, 171.  
 contact cup for corneal baths, (1331).  
 dermatitis from, (485), (1330).  
 penetration into the eye, (237), (238).  
 into vitreous, 599.

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

Penicillin (*continued*).  
 in surgery, (1329).  
 vehicles and forms, influence of, 541.

Penicillin in ocular infections, (226), (227), 450.  
 anterior chamber, experimental, 341.  
 conjunctival, (250), (895), (1048), (1049), (1064).  
 corneal, (226), (485).  
 dacryocystitis, (227), 723, (1200).  
 endophthalmitis, (755).  
 hypopyon, 1152.  
 injuries, 465.  
 interstitial keratitis, (254).  
 intraocular use, (1604).  
 keratoconjunctivitis, (256), 721.  
 neonatorum, (253).  
 vitreous, 599.

Penido Burnier Institute, (1493).

Perandren for Sjögren's syndrome, (1613).

Periarteritis nodosa involving choroidal and retinal arteries, 435.

Perimetry:  
 color, (1608).  
 exact basis for, (1603).  
 flicker, (225).  
 instruction, plea for better, 745.  
 Maggiore's projection, (1042).  
 self-registering bowl, (1603).  
 studies with monochromatic and white targets, (1336).

Pervertin therapy for allergic conjunctivitis, (253).

Philadelphia, see College of Physicians of.

Pharmacology of ophthalmic drugs, 1452.

Photography:  
 of external eye, (1494).  
 lens, violet light for, 204.

Photolytic lipids from visual pigments, (1607).

Photophobia and color blindness, (240).

Physiotherapy in eye injuries, (141).

Physiologic optics, refraction, and color vision, (238), (487), (609), (757), (1050), (1331), (1605).

Pine needles, carotene from, (125).

Plastic surgery, see under Surgery.

Plato's conception of light and sight, (1210).

Pneumococcus and sulfonamides, (1605).

Podophyllin, corneal insult from, 1448.

Poisonous animals and plants and ocular affections, (1485).

Polyuria, (768).

Polyopia and monocular diplopia of cerebral origin, (757), (1606).

Posner, Max, 751.

Postconcussion syndrome, (1194).

Preglaucoma, 520.

Pregnancy:  
 ocular changes in, (376).  
 retinal circulation and ocular tension in, (123).

Presbyopia:  
 additions, (1052).  
 with alternating squint, 221.  
 correction, (610).

Prisms, see under Spectacle Lenses.

Privin (Ciba) in ophthalmology, (483).

Promin in ocular tuberculosis, (1210).

Prontosil to treat blenorheal conjunctivitis, (226).

Prosthesis:  
 acrylic, (484).  
 for lid, (484).  
 plastic (129), (1205).  
 synthetic resin, (484).

Provisial red and visual red, (777).

Psychoneurosis, ocular, (1488), (1489), (1491), (1492).

Pterygium, (612).  
 corneal graft for, (900).  
 nevogenous, (899).  
 origin and keratoplasty for, (900).  
 surgery, (613), (762).

Ptosis:  
 classification and correction, 211.  
 congenital, 588.  
 and see under Lids.

Pupil:  
 artificial in sight restoration, (1619).  
 Franceschetti's corepraxy, (901).  
 bilateral fissurelike associated with Bitot's spots, (901).  
 and ocular imagery, (1050).  
 rigidity and senile miosis, (1621).  
 segmented movement, (493).

Purkinje, Jan, (145).

Quinine amblyopia, (1045), (1196), (1630).

Radiation, beta, and ophthalmology, (1048).

Radioactive isotopes, 1596.

Radiographic location of foreign body, (1602).

Radiotherapy, (757).

Rana, transplantation of optic vesicle in, (384).

Rebating, Federal investigation of, 1313.

Recklinghausen's disease, (1199), (1204).

Reflex disorders from dental affections, 1135.

Refraction:  
 aniseikonia and horros fusionis after trauma, (1055).  
 anomaly, (1607).  
 astigmatism, (207), (242), 740, (1052), (1057), (1057).  
 biastigmatism, (488).  
 bicylindrical correction, (487).  
 changes in, analysis based on case histories of Edward Jackson, (487).  
 chart, foot switch to control, 1578.  
 clinic, 1577.

crossed cylinder:  
 errors in use of, 351.  
 Jackson's, (1609).  
 technique, (1056).

error causes gastro-intestinal ailment, (610).  
 correlated with unaided visual acuity, 853.

heredity a factor of, with environment, study of twins, (240), (243), (245).  
 and law of physiologic aging, (758).  
 measurement in high values in keratoconus, (1605).

posterior principal plane, significance for, (245).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

**Refraction (continued).**  
 presbyopic additions, (1052).

**Reiter's disease,** (251), (252), (896), (920), (1344), (1348), (1612).

**Reiter-Freund's syndrome,** (1491).

**Retina and Vitreous,** (122), (365), (500), (625), (775), (907), (1188), (1627).

**Retina:**  
 acetylcholine in frog's, (1051).  
 angioid streaks:  
   observed 36 years, 739.  
   vascular disease—pseudoxanthoma elasticum, (1193).  
 angioma, 711.  
 angiomatosis, 1591.  
 cysts, (777).  
 degeneration:  
   colloid, 470.  
   pigmentary, (775), 882.  
   tapeto-, 1166.  
 diathermy tip for retina, (484).  
 diseases of, 1601.  
 edema, peripapillary, in war nephritis, (126).  
 fibers, course and arrangement, (147).  
 folds:  
   congenital, (909).  
   from pressure of mucocele, (367).  
 glycolysis of glucose and fructose in, (780).  
 hemorrhage:  
   macular, (209).  
   of newborn, (142).  
 hole, before detachment, (1190).  
 hypophyseal derangements treated with gonadotropin, (627).  
 lesions, in acute disseminate lupus erythematosus, (780).  
 periphlebitis, (124), (1629).  
 pigmentation, (1189), 1458, 1461.  
 response to X-ray, (501).  
 rupture, spontaneous recovery after shotgun injury, (365).

**Retinal blood vessels:**  
 anomalies of (1627).  
 blood flow, in child, (628).  
 measurement and essential hypertension, (776).  
 mechanism of stellate retinopathies, (366).  
 sclerosis, (502).  
   complete nonsyphilitic, (366).  
 central vascular disease, 209.

**Retinal arteries:**  
 closure of central, (209).  
 differentiation emboli from endarteritis, (775).  
 hypertension, relation to Mariotte's blind spot, (1044).  
 obstruction of central, (1631).  
 thrombosis, (365).

**Retinal veins:**  
 thrombosis due to syphilis, (626).  
 after trauma, (1629).

**Retinal circulation:**  
 abnormalities in carotid-sinus syndrome, (779).

**Retinal circulation (continued).**  
 and blackout in aviators, (1050).  
 impaired in postconcussion syndrome, (1194).  
 intraocular pressure and, in pregnancy, (123).

**Retinal correspondence:**  
 measurement of abnormal, 359.

**Retinal detachment:**  
 accidental injury and, (123), (124).  
 clot shrinkage in relation to, (124).  
 congenital, (1193).  
 and conglomerate tubercle of choroid, 869.  
 eclampsia and papilledema with, (126).  
 etiology and pathology of, (1629).  
 heredity, (501).  
   in spontaneous, (125).  
 holes:  
   multiple in myopia, 1307.  
   nonsurgical treatment of, 1588.  
   origin and healing of, (1188).  
   papilledema of optic nerve, (126).  
   postoperative hypotony, (778).  
   in pregnancy, (1630).  
   idiopathic, 1584.  
 recurrent, (627).  
 retroretinal fluid in, (502).  
 and tuberculosis, (626).  
 with bilateral uveitis, 536.

**Retinal detachment treatment:**  
**diathermy:**  
 apparatus for, (122).  
 electrode comparison, (502).  
 operation in myopes, (628).  
 prognosis in senile, (629).  
 posterior sclerotomy, 1308.  
 surgical treatment, (1630).  
 Tenon's capsule injections, (908).  
 Veil's juxtachoroidal galvanocauterization, (776).

**Retinal periphery, function in aphakia,** (1185).

**Retinitis:**  
 circinate, in a child, 91.  
 Coat's exudative, (629).  
 diabetic, (366).  
 neuro-, of unknown origin, (1190).  
 pigmentosa, (1189), (1191).  
   hemeralopia congenita and, (123).  
   measured by optokinetic nystagmus, (235).  
 pseudo-nephritic, (778).  
 punctata albescens, (124).  
 solar, (1630).  
 due to sulfonamides, (1631).

**Retinoblastoma,** (1192).

**Retinopathies:**  
 arteriosclerotic complicating cataract, 1166.  
 diabetic, 591.  
 mechanism of stellate, (366).  
 associated with pheochromocytoma, (629).  
 postpartum, (1192).

**Retinoscopy, see under Refraction.**

**Retrolental fibroplasia,** (367).

**Return Lend-Lease,** 1172.

**Riboflavin, see under Vitamin B.**

**Roentgen ray, see under X ray.**

**Rothmund's syndrome,** (906).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

Royal Society of Medicine, Section of Ophthalmology, **90**, 872, 1026.

Rubella, see under Maternal Rubella.

Rubeosis iridis, **1590**.

Sarcoma, see under Tumors and affected tissues.

Sclera:

- blue syndrome, (615).
- defects, treatment of, (110).
- episclera, nodular, (768).
- tuberculous nodules of, **86**.
- neurinoma, (507).
- plaques, senile hyaline, (616).
- resection, **785**, 1159.
- wounds, treated with plastic, (1613).

Scleral-resection (eyeball-shortening) operation, **785**.

Scleritis, nodular tuberculous, (469).

Scleromalacia, **862**.

- perforans, (113).

Sclerosis,

- early ocular symptoms of, **349**.
- retinal vascular, (502).
- sheating of retinal veins in, **1150**.

Scopolamine-eucodal-ephetona narcosis, (231), (234).

Scotoma:

- central, in early diagnosis of intracranial affections, (126).
- epival ingestion and, **1258**.
- ring and paralysis convergence, (1060).
- scintillating and attack of color blindness, (241).
- sensory suppression phenomena, (1609).

Short-wave therapy in ocular infections, (228).

Siderosis bulbi, **346**, (903), (1021), (1197).

- following intralenticular foreign body, **346**.
- with spontaneous resorption, (1484).

Sight restoration and artificial pupil, (1619). and corneal grafting, (484).

Silver nitrate as preoperative germicide, (233).

Sjögren's syndrome, (911), (1202), (1613).

- stilbesterol treated, (762), (911).

Slitlamp:

- microscopy, (225).
- of fundus, without contact glass, (224).

Sluder syndrome, (1476).

Social work, medical, in sight conservation, (146).

Socket:

- electrocoagulation, (129).
- restoration, (233).

South Africa, blindness and eye diseases in, (381).

Space perception, disturbance after trauma, (243).

Spastic paraparesis and macular degeneration, (1190).

Spectacles:

- acrylic, moist-chamber, pinhole, **725**.
- Army, causes dermatitis, (380).
- astigmatism, **207**.
- bifocals:
- dispensing with, **607**, 893.

Spectacles (*continued*):

- practical points for prescribing, **206**.

Spectacles:

- contact, (1609), (1610).
- experiences with unbreakable, (759).
- fluid for filling, (240).
- used with lesions of retina and choroid, (243).
- optic theory of, (1058).
- fitting, (241).
- optical service unit in Navy, (382).
- ring defect in visual field when wearing, (239).
- trifocal, (246).
- visual discomfort in eye workers, (487).

Spectrum and vision, (1059).

Sphenoidal mucocele in migraine syndrome, (1611).

Stähli's corneal line in trachoma, (1615).

Status dysraphicus, hypochromia with, (258).

Stellate ganglion block for methyl-alcohol poisoning, (625).

Stellectomy and neurovegetative drugs, (496).

Stenosis, treated with plastic dacryorhinostomy, **881**.

Stereopsis evaluation, (611).

- Monje's test, (1056), (1345).

Stereoscopic sensitivity in space eikonometer, (610).

Sternomastoid and ocular torticollis in air-crew recruits, (1062).

Stevens-Johnson's disease, **185**, (1345).

Stilbesterol for Sjögren's syndrome, (762), (911).

Strabismus:

- anomalous congenital, (1343).
- alternating, presbyopia with, 221.
- convergent:
- effect of anoxia on heterophoria and analogy with, (246).
- function of convergence, (761).
- functional and cosmetic results of treating, (248).
- pathogenesis and early operation, (1341), (1342).
- pathologic physiology of, **209**.

Latvia campaign, (1059).

measurement, instrument for, (1343).

treatment:

- orthoptics, (247), (1341).
- surgical **408**, (1341).

and see under Muscles.

Streptomycin:

- in corneal abscess, **1007**.
- in corneal ulcer, **1106**.
- intraocular penetration, (1046).

Subarachnoid hemorrhages, (1631).

Sugar therapy in ophthalmology, (230).

Sulfonamides:

- amblyopia, (482).
- bilateral accommodation contracture from, (483).
- cibaol for serpiginous ulcer, (1618).
- for conjunctivitis gonococcic, 694.
- corneal wounds, (485).
- hypopyon ulcers, (1612).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

**Sulfonamides:**

- intoxication from sulfadiazine, (1065).
- irgamid, in keratitis, (1350).
  - in rabbit tissues and fluids, (1330).
- keratocconjunctivitis treated with sulfasuxide, (256).
- mechanism of action, (235).
- myopia from, (488), (758).
- for ophthalmia neonatorum, (767).
- in ophthalmology, (235), (765).
- for pneumococcus, (1605).
- retinitis caused by, (1631).
- for serpiginous ulcer, (767).
- in trachoma, (252), (486), (763), (764), (765), (766), (767), (896).
- vehicles and form, influence of, 541.

**Surgery, general and plastic, 221.**

**Surgery, ocular:**

- anesthetics, 1119, 1451.
- dust-borne infection in, 1435.
- fistulizing operation, (903).
- ophthalmopedics, use in, 968.
- plastic:
  - about the eyes, (236).
  - cautery on eyelid, (485).
  - eye socket, (485).
  - grafts, choice of, 867.
  - lacrimal passages, (505).
  - lids, (485), (505).
  - for palpebrofacial defects, (134).
  - socket-grafting, (485).
  - tubular stem in, (505).
- silver-nitrate solution as preoperative germicide, (233).
- Thrombin technique in, (1605).
- transplantation of tissues in, 193.
- war, in forward areas, (916).

**Surgical instruments, test and preservation, 873, (1050).**

**Surgical peg, new type of, 586.**

**Sutures:**

- controlled for muscular advancement, (248).
- extraocular muscle, study of, 1126.
- Moretti's for Mooren's ulcer, (491).
- recession, measurement and placement, 585.

**Syblepharon:**

- effect on motility, (1484).
- prevention of, (251).
- repair of extensive posterior, (250).
- seed-grafting in treatment of, 1568.

**Sympathetic ophthalmia, (113), 737, 1587.**

- without exciting inflammation, (621).
- following injury, 97.
- following iridencleisis, 96, 97.
- nucleoproteins in, (619).
- pathology, (1175).
- new symptom, (1620).

**Sympathicoradial system, hypertension of, (119).**

**Synchysis scintillans, (778).**

**Syndrome:**

- Behcet's (Bechtsched), (1178), (1209).
- carotid-sinus, (779).
- Duane's, (504), 872.
- Ecchymotic mask, (1204).
- Foster Kennedy, (631).

**Syndrome (*continued*):**

- gonorrhreal (Reiter's disease), (251), (252), (896), (1491), (1612), Gunn's, 1457.
- Harada's disease, 1176.
- Horner's, (380).
- iritis, vitreous hemorrhages, ulcers, (492).
- Klippel-Feil associated with oxycephaly, 685.
- Koyanagi, (494).
- Lawrence-Moon-Biedl, 939.
- Marfan's (378), (498).
  - with spontaneous dislocation of lens, (122).
  - migraine, (1611).
- Parinaud's, (251), (761).
- peduncular, new type, (511).
- postconcussional, (1194).
- posttraumatic leading to enucleation, 471.
- Reiter-Freund, (1491).
- Reiter's disease, (251), (252), (896), (1491), (1612).
- Rothmund's (906).
- of blue scleras, (615).
- Sjögren's, (911), (1202), (1613).
  - treated with stilbesterol, (762), (911).
- Sluder's, (1476).
- Stevens-Johnson's disease, 1121, (1345).
- uveitis, meningo-encephalitis, alopecia, poliosis, and dysacusia, 524.
- Vogt-Koyanagi, 100, (494).
- Werner's, (906).

**Synthetic resin prothesis, (484).**

**Syntropan as a mydriatic, 728.**

**Syphilis:**

- bilateral blindness from, (380).
- exophthalmos and orbital-temporal osteoma, (1197).
- experimental, development of immunity, 389.
- hyperpyrexia for, (1046).
- meningitis, diagnosed by ophthalmoplegia, (762).
- ocular, (1491).
- optic-nerve atrophy, 92.
  - and malaria therapy, (909).
- thrombosis central retinal vein, (626).
- treatment, (636).
- vanadium for, (1604).

**Systemic diseases and parasites, (142), (376), (509), (636), (916), (1206), (1487).**

**Talc, effect in ocular surgery, (753).**

**Tapeto-retinal degeneration, 1166.**

Thrombin technique in ophthalmic surgery, **(1605).**

Thrombosis:  
of arteriole in macular region, (365).  
of internal carotid, (380).  
of central retinal vein, (1189).  
associated with chromate poisoning, (630).  
after trauma, (1629).  
following vaccination, (908).  
treated with heparin, (1191), (1192).  
treatment with retinal venous anticoagulant, (1189).

Thyroid disease:  
exophthalmic, in children, (379).  
eye changes in primary diffuse goiter, (1479).  
Graves' disease, (1477).

Thyroid medication and exophthalmos, **1028.**

Thyroidectomy and exophthalmos, (782).

Thyrotoxicosis and exophthalmic ophthalmoplegia, **654.**

Thyrotropic hormone producing exophthalmos, **467,** (504), (1480).

Tissues, intraocular, hyaline bodies in (1478).

Tobacco amblyopia, (1196).  
effect on angioscota, (907).

Tonkin, blindness in, (382).

Tonometer, (771).  
elasto-, (116), (120).

Torticollis, sternomastoid and ocular, (1062).

Torula histolytica infection of eye, 212.

Toxoplasmosis:  
congenital, **1590.**  
nystagmus test for, (1060).  
in twins, (501).  
associated with uveitis, treatment, 277.

Trachoma:  
in China, among school children, (765).  
control, in Latvia, (1343).  
corneal hyperplasia following, (614).  
dacryocanaliculitis following, (371).  
etiology, (250).  
in Ireland, (612).  
eye diseases in the East, (613).  
incipient pannus as criterion for early diagnosis, **645.**  
Stähli's corneal line in, (1615).  
Weil-Felix reaction in, (895).

Trachoma treatment:  
albucid, (762).  
cold applications, (253).  
contribution to therapy of, (895).  
drugs for, (489).  
Lutazol, (485).  
penicillin, action on inclusion bodies, (894).  
streptocide, (109).  
sulfonamides, (108), (252), (486), (763), (764), (765), (766), (767), (896).

Training nonmedical helpers in ophthalmology, **1466.**

Transplantation salamander eyes and return of vision, (1494).

Trephining, see under Glaucoma.

Tridione and the eye, **606.**

Triturus:  
lens grafts and regeneration, (639).  
transplantation of optic vesicle in, (384).

Tryparsamide amblyopia, **92.**

Tryptophan content of lens proteins, (1186).

Tscherning and his work, (383), (638).

Tuberculin therapy, (1330).

Tuberculosis:  
insurance for, (916).  
keratitis, **210.**  
and beta emanation, **210.**  
ocular, (379).  
atypical, (1474).  
relation to body as a whole, (142).  
clinical aspects, (1206).  
diagnosis, (144), (1476).  
differential diagnosis, (144).  
problems and treatments, (379).  
promin treatment, (1210).  
of choroid, (869).  
of conjunctiva, (489).  
infantile, (250).  
of cornea, **210,** (231).  
of episclera, **86.**  
of orbit, (1198).  
of retina:  
detachment in, (626), (869).  
with periphlebitis, (124).  
of sclera, **469.**

Tuberculosis treatment, (379), (1476).  
perhepar, (144).

Tuberculoma of choroid, (259).

Tuberculous dystrophic osteitis of skull, (372).

Tuberculous gumma of eye, (503).

Tubular stem in ophthalmology, (505).

Tularemia, (489).  
oculoglandular, **698,** **1166.**

Tumors, (132), (371), (505), (623), (912), (1203), (1482).  
adrenal neuroblastoma, (912).  
chloroma, clinico-pathologic study, (912).  
cranial, eye and nerve symptoms, (1203), (1204).  
experimental, cultivation in anterior chamber of guinea-pig's eye, **1098.**  
Foster Kennedy syndrome, (631).  
of chiasm, glioma, (635).  
prechiasmal meningioma, (1204).  
granuloma of bone causing exophthalmos, **980.**  
naso-pharyngeal and neurologic symptoms, (1483).  
pineal, eye signs in, (920).  
pituitary and visual disturbances, (372).  
Shugrue's operation, (910).  
skull with ocular changes, (372).

Tumors of choroid:  
angioma, (132).  
carcinoma, **1585,** (1620).  
melanoma, (258), (372), **1456,** **1457.**  
metastatic, (902).  
from breast in a man, (374).  
after chorionepithelioma of testicle, (1620).  
sarcoma, correlation ophthalmoscopic and microscopic changes, (1624).  
diagnostic puncture, (133).  
tuberculoma, (259).

Tumors of the ciliary body, (634), **1310,** **1457.**

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

Tumors of the conjunctiva:  
 cancer, (763).  
 capillary angioma, (897).  
 epithelioma, 92.  
 hemangioma, (1344).  
 melanocarcinoma, (1347).  
 neurofibromatosis, (252).  
 papilloma, (1344).  
 reticulo-histiocytoma, (1612).

Tumors of the cornea:  
 epidermoid carcinoma, 864.  
 accessory lacrimal gland of, 579.  
 papilloma, (490).  
 following trachoma, (614).

Tumors of the eye:  
 intraocular, (372).  
 unrecognized, (372).

Tumor of the fundus, angioma, (374).

Tumors of the iris:  
 epithelial, (1613).  
 melanoma, 1310.

Tumor of lacrimal-sac region, (370).

Tumor of the lids, myoblastoma, (1480).

Tumor of meibomian gland, epithelioma, (374).

Tumors of the optic nerve:  
 on the disc, (1309).  
 glioma, 323, (373).  
 melanoma of the disc, (506).  
 meningioma with atrophy, 1589.  
 sheath, (373).

Tumors of the orbit:  
 amputation neuroma, (1197).  
 carcinoma with exophthalmos, (505).  
 chloroma, (506).  
 with fundus changes, (1198).  
 and intracranial dermoids, (782).  
 intraorbital, (634).  
 neurofibromatosis, 1299.  
 melanoma, (1203).  
 metastases from skin melanoma, 466.  
 musculature, (373).  
 myxoma, (1473), (1477).  
 osteoma, 1308.  
 with exophthalmos in syphilis, (1197).  
 retothel sarcoma, (506).  
 teratoma, (1483).

Tumors of the retina:  
 angioma, 711.  
 pheochromocytoma and hypertensive retinopathy, (629).  
 retinoblastoma, 1166, (1192).

Tumor of sclera, nuerinoma near limbus, (507).

Tunica vasculosa lentis, 1462.

Turkey, history of ophthalmology, (146).

Twins:  
 hyperopic astigmatism and hyperopia in, (243).  
 refraction of, (240), (242), (243), (245).  
 toxoplasmosis in, (501).

Typhus:  
 scrub, (917).  
 eye and ear sequelae, (510).  
 spotted, (917), (921).  
 and fundus lesions, (627).  
 tropical, ocular findings in, (917).

Ultra-violet light:  
 campimetry with, 204.  
 to study Kayser-Fleischer ring, (1613).

Uvea, acquired ectropion, (770).  
 Uveal blastomycosis, (1487).  
 Uveal tract, cysts in anterior, (1623).  
 Uveal tract, sympathetic disease, and aqueous humor, (113), (257), (491), (617), (768), (901), (1175), (1619).

Uveitis:  
 aphthous with mucocutaneous lesions, (1620).  
 with secondary glaucoma, (1623).  
 hypopyon, (492).  
 associated with toxoplasmosis, treatment, 977.  
 and Vogt-Koyanagi syndrome, 100.  
 due to Actinomyces, 524.  
 with retinal detachment, 536.

Uveomeningitis and Harada's disease, (1176).

Uveoparotid fever, (492).

Vanadium in ocular syphilis, (1604).

Varicella, (1066).

Varices of Gent, (375).

Veterans' Administration, ophthalmology in, 1169.

Via optica, (1212).

Violet light:  
 dark, for microscopic inspection and photography, 204.  
 ultra, campimetry with, 204.  
 to study Kayser-Fleischer ring, (1613).

Vision:  
 Aristotle's doctrine of, (1213).  
 binocular, in aphakic patient, (772).  
 monocular dominance in, (1054).  
 Cantonnet system to overcome repression of, (1331).  
 daylight, chemistry of, (1607).  
 in industry, 63.  
 monocular multiple, 590.  
 night, (755).  
 peripheral and anoxia, (1053).  
 Plato's conceptions of, (1210).  
 and the spectrum, (1059).  
 twilight, experimental research on, (1606).  
 and types, paper, and printing, (923).  
 and see under War, Visual Acuity, and Abstracts, section three.

Vision, color:  
 anomalies in one eye, normal in other, (245).  
 defective, see under Color blindness.  
 foveal sensitivity, (1610).  
 fundamental color sensations in human, 220, (1053), (1058).  
 inhibitory processes, in normal, (1332).  
 in synthesis of, (1333).  
 tests, (1055).  
 for detection and analysis, (1333).  
 standard illuminants for, (609).

Visual acuity:  
 brightness threshold and, (1339).  
 in children of premature, full-term, and hypermature birth, 57.  
 improvement of, with visual exercises, 204.  
 with contact glasses, (243).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

Visual acuity (*continued*).  
 letters, (1057).  
 and myopia, (1056).  
 objective determination in, (487).  
 physiology of, (1334).  
 exposing simulated reduction in, (1339).  
 tests, for infants, 73.  
 unaided, correlated with refractive errors, 853.

Visual aptitude and fatigue in aviators, (1061).

Visual efficiency and illumination, (1337).

Visual examinations, (925).

Visual exercises, (204).

Visual factors in design of military aircraft, (1493).

Visual fields:  
 central, after occipital lobectomy, (1472).  
 examination of, by flicker perimetry, (225).  
 by fusion frequency, (1334).  
 in hydrocephalus, (1471).  
 improved after removal of pituitary tumor, (372).  
 rhythmic phenomenon in, (243).  
 temporal crescent defects, localizing value, (225).

Visual handicapped, (923).  
 medical-social experiences of Copenhagen children, (1212).  
 public school program in Oregon, (1211).

Visual pathways structure, (1213).

Visual perception:  
 abnormal delay, (1609).  
 and fluctuation, extinction, and completion, (1606).

Visual phenomena and photochemical laws, (1332).

Visual reeducation, (754).

Visual signs in diagnosis, (1044).

Visual tests:  
 astigmatism, group demonstration of, 1094.  
 a new cabinet for, (239).  
 cover, (1064).  
 in industry, (732).  
 in military, (731).  
 in school, (734).  
 nyctalopia examination apparatus, (1058).  
 retension, (752).  
 women's needlework, (1051).

Visual thresholds:  
 index of anoxia by glucose, (488).  
 in insulin hypoglycemia, (1057).

Visual training:  
 media, (1212).  
 in myopia, 28.

Visual tracts and centers, (126), (782), (910), (1197), (1471).

Vitamins synthesized in human body, 1015.

Vitamin B<sub>1</sub>, effect on accommodation, (244).

Vitamin C:  
 demonstration and localization of, (223).  
 distribution in lens, 773.  
 and penicillin treatment in hypopyon ulcer, (1617).  
 in senile cataract, saturation level, (498).

Vitamin deficiencies, (1489).  
 determined by blood examination, 1018.  
 determined by urinalysis, 1018.  
 ocular manifestations of, (1490).

Vitamin-A deficiency:  
 dark adaptation, (90), (125), (1018).  
 effect on rabbit eyes, 801.  
 maternal intake of rat and ocular abnormalities, 1234.  
 malformations in rats, (1495).  
 ocular manifestations of, (1017).  
 ocular test for, (769).

Vitamin-B<sub>1</sub> (thiamin) deficiency and viral antibodies, 1015.

Vitamin-B<sub>2</sub> (riboflavin) deficiency, (897).  
 eye changes in, (510).  
 ocular disturbances, (379).  
 ocular expressions in, 1015.
